

TRANSPORTATION BUFFER ZONE

The base mileage used for bus drivers is calculated from the home base garage to the farthest point of the individual bus route and back to the home base garage. An additional "Buffer Zone" would extend beyond this base mileage. A ten (10) kilometre "Buffer Zone" has been added to the base mileage.

Bus routes will be reviewed during the last quarter of the school year and changes to the existing routes regarding the "Buffer Zone" may be reported at that time. If bus drivers find that their route is beyond the ten (10) kilometre "Buffer Zone", a written application may be made to the Board for further consideration.
