

ATTENDANCE POLICY – GRADES 9-12

Students in Turtle Mountain School Division are expected to attend classes regularly and punctually in order to gain maximum benefit from instruction offered.

Each of the high schools will develop an attendance policy, place it in the student handbook for public information and review the policy with students. Once initially approved by the Superintendent, the school will advise and seek approval for any major changes to the attendance policy from the Superintendent who will, in turn, advise the Board of changes.
