

PRINT AND DIGITAL MEDIA PUBLICATION

Turtle Mountain School Division recognizes that print media, digital media and the internet provide an ideal means to showcase divisional and school activities and share student work with other students, parents/guardians, staff and the global community.

The Division remains committed to protecting the privacy and safety of all students, and has established procedures for the publication, broadcast and distribution of print and digital media. School administrators are responsible for ensuring that this protocol is followed. The Parent Media Release and Student Acceptable Use Agreement form is to be signed by parents/guardians upon entry of a student into kindergarten to include the period of K-6, and again in grade 7 to include the period of 7-12. The form must also be completed and signed by the parent/guardian of any new student to Turtle Mountain School Division immediately upon registration. Once dated and signed, this form shall remain in effect until consent is revoked. Parents/guardians may, at any time, amend this form by notifying the school principal of the change in writing. The consent of parents/guardians may be withdrawn at any time.
