

### THE ORGANIZATIONAL STRUCTURE

The Turtle Mountain School Division believes in the importance of a clear organizational structure. The organizational structure and its functions should be reviewed every five years or as needed.

1. The Superintendent/CEO will bring forward suggested amendments to the organization structure as needed and when changes are recommended.
2. The Superintendent/CEO will ensure job descriptions are current and accurately reflects the duties of all positions.

The Board will be apprised and subsequently approve modification to the organizational structure.

An illustration of the Turtle Mountain School Division organization structure will accompany this policy.
